

## **Positive Hendra virus case in North Queensland**

Biosecurity Queensland is managing a case of Hendra virus infection near Cairns after test results on a deceased horse came back positive for the virus.

A private veterinarian attended to the sick horse over the weekend.

The affected property will be quarantined to restrict the movement of horses on and off. Tracing will be a priority to determine what contact the deceased horse had with other animals on the property.

### **More information**

Notify suspected Hendra virus cases by contacting Biosecurity Queensland on 13 25 23 (during business hours) or the Emergency Animal Disease Watch Hotline on 1800 675 888 (24-hour hotline). More information is available at [www.biosecurity.qld.gov.au](http://www.biosecurity.qld.gov.au)
